THROMBOSIS

RISK FACTORS

Thrombosis can affect any person indiscriminately. However, there are factors and situations that can increase the risk of developing blood clots.

High risk

- ◆ Prolonged immobilizations
- ◆ Some surgeries

Moderate Risk

- ◆ People over 60 years of age
- ◆ Personal or family history of thrombosis
- ◆ Getting cancer
- ◆ Use of some hormonal medications

Others

- ◆ Obesity
- ◆ Pregnancy or recent childbirth
- ◆ Tobacco use
- ◆ Alcohol consumption

If you have any doubts, consult the Anticoagulation Clinic
